Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. **(§205(b)(1)(H))**

What are CIP Codes?

☐ **No teachers prepared in academic year 2018-19**

If your program has no teachers prepared, check the box above and leave the table below blank (or **clear responses already entered**).

> What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. **(§205(b)(1)(H))**

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Do participants earn a degree upon completion of the program?

- ● Yes
- ○ No

☐ **No teachers prepared in academic year 2018-19**

If your program does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or **clear responses already entered**).

Program Assurances

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. **(§205(a)(1)(A)(iii); §206(b))**

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- ● Yes
- ○ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- ● Yes
- ○ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- ○ Yes
- ○ No
- ● **Program does not prepare special education teachers**

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- ● Yes
- ○ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- ● Yes
- ○ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- ● Yes
- ○ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- ● Yes
- ○ No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Earlham College Graduate Programs in Education reamins in close contact with local schools and local school administrations through our advisory board and frequent visits. We are familiar with the needs of our local schools and will continue to look systematically at principal feedback concerning our graduates. We prioritize exposing our teacher candidates to a variety of contexts and experiences.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.
(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.

In order to complete this section, you may find it helpful to review your goals in your 2019 report. You may download and review your 2019 report by following the following steps: 1) click the Home tab, 2) click "Academic Year 2018-19 Data" in the banner near the top of the page to expand the dropdown, and select "Academic Year 2017-18 Data," 3) Click Download Report.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. **(§205(a)(1)(B))**

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. **(§205(a)(1)(B))**

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program. **(§205(a)(1)(D), §205(a)(1)(E))**

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- ● Yes
- ○ No

If yes, please specify the organization(s) that approved or accredited your program:

- ☑ State
- ☐ CAEP
- ☐ AAQEP
- ☐ Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- ○ Yes
- ● No

Use of Technology

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Use of Technology

1. **Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))**

    Does your program prepare teachers to:

    a. **integrate technology effectively into curricula and instruction**

    - ● Yes
    - ○ No

    b. **use technology effectively to collect data to improve teaching and learning**

    - ● Yes
    - ○ No

    c. **use technology effectively to manage data to improve teaching and learning**

    - ● Yes
    - ○ No

    d. **use technology effectively to analyze data to improve teaching and learning**

    - ● Yes
    - ○ No

2. **Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.**

    We embed technology use throughout the entire program so that our candidates not only learn how to use it but actually experience using a wide variety of technology, data, etc. with the express purpose of increasing student achievement. We engage students with the concept of digital literacy, which they apply in practice during the summer middle school practicum. All students learn how to use spreadsheet software and are required to compile, graph, and disaggregate data on student learning. Students are also introduced to Universal Design for Learning -- its history and current practices -- and this is assessed via an oral exam. The spring semester is concluded with an action research project based in candidates' classroom and school. This project includes research of current literature, observations of students, planned and implemented action, and compilation and presentation of data and reflections. Throughout the program, we model the use of Web 2.0 tools and require our student teachers to both use the tools to complete projects of their own and to design projects that engage their students in using those tools to interact with content. We also teach and model digital tools that give in-the-moment assessment feedback. The use of technology is assessed in multiple places, including the portfolio. Many of our students get hands-on experience in implementing online instruction for eLearning days.

Teacher Training

Provide the following information about your teacher preparation program.
(§205(a)(1)(G))

Teacher Training

1. **Provide a description of the activities that prepare general education teachers to:**

   a. **Teach students with disabilities effectively**

   Work with exceptionalities of all kinds is again embedded throughout the entire program. Our students learn from the beginning that to teach means to teach all students regardless of their learning needs. Our students see using a differentiated approach to teaching as simply good teaching. We spend a great deal of time in the summer and fall semesters learning about disabilities and the individualized education plan process, and students apply their learning in their practicum and student teaching experiences. These capabilities are assessed via various written assessments, an oral assessment, and the teaching evaluation.

   b. **Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act.***

   During their practica, student teachers attend all the IEP meetings that their mentor would normally be expected to attend. Student teachers are also expected to review and make accommodations, and keep track of those accommodations, based on the IEPs for their students. Through readings and coursework, students also learn about IEPs during the summer and fall semesters.

   c. **Effectively teach students who are limited English proficient.**

   During their practica, student teachers are expected to work with the ELL teacher in their building to provide students who are limited English proficient a full and and engaging education. Working with the TESOL department at Earlham, we bring in guest speakers who can give the most up to date practical information that our student teachers can use to support their ELL students. Also, through assigned readings and coursework, students learn both practical tips and an equity-based pedagogical approach to teaching ELL students.

2. **Does your program prepare special education teachers?**

   ○ Yes
   ● No

   If yes, provide a description of the activities that prepare *special education teachers* to:

   a. **Teach students with disabilities effectively**

   b. **Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act.***

c. **Effectively teach students who are limited English proficient.**
