

I'm interested in *Computer Science!* What should I take this year?

Name of program: **Computer Science**

First year students who are reasonably certain that they will major in this area should take:

	<i>Required/ Recommended</i>	<i>You might also consider....</i>
Fall	CS128: Programming and Problem Solving	MATH 180: Calculus A
Spring	CS256: Data Structures MATH195: Math Toolkit	MATH180: Calculus A CS281: Applied Groups

First year students who are still exploring many options, but are interested in perhaps further study in this area should take:

	<i>Recommended</i>	<i>You might also consider....</i>
Fall	CS128: Programming and Problem Solving	
Spring	CS256: Data Structures MATH195: Math Toolkit	

*Does your department accept AP/IB courses for credit or advanced placement? **Yes***

If so, what scores qualify, and what placement is granted?

Students with exceptional experience with programming and computing can sometimes start with CS256, passing over CS128. Each case is reviewed individually. Please contact a Computer Science faculty member as early as possible.
