**Class of 1975 Gathering**  
Hampton Inn & Suites Lobby, 455 Commerce Road

8:30 p.m.  
**Class of 2005 Gathering**  
New Boswell Brewery and Tap Room, 410 North 10th Street

9:00 p.m.  
**Class of 1990 Gathering**  
Smiley’s Pub, 39 North 8th Street

9:00 p.m.  
**Class of 1995 Gathering**  
Holiday Inn Bar and Lobby area, 6000 National Road East

9:00 p.m.  
**Class of 2000 Gathering**  
Smiley’s Pub, 39 North 8th Street

9:00 p.m.  
**Class of 2010 Gathering**  
Smiley’s Pub, 39 North 8th Street

9:30 p.m.  
**Class of 1965 After Hours Gathering**  
Hospitality Room 209, Holiday Inn, 6000 National Road East

**SATURDAY, October 31, 2015**

7:00 a.m.  
**Early Morning Bird Walk with Karen Hibbard-Rode Mager ’04, Visiting Assistant Professor of Biology**  
Meet at Stout Meetinghouse

8:00 a.m. – 3:00 p.m.  
**Weekend Registration**  
Orchard Room, Runyan Center

8:00 a.m.  
**Golden and Emeriti Reunion Classes Breakfast**  
Comstock Room, Runyan Center

9:00 a.m. – 3:30 p.m.  
**Class of 1965 Creative Works Show**  
North Hallway, across from Room 150, Center for the Visual and Performing Arts

9:00 a.m. – 3:30 p.m.  
**Class of 1965 Gathering**  
Room 150, Center for the Visual and Performing Arts

9:30 a.m.  
**State of the College presented by President David Dawson**  
Loose Lecture Hall, Landrum Bolling Center

10:00 a.m.  
**Class of 1980 Brunch**  
Home of Nelson and Gail Bingham, 3926 Smyrna Road
10:00 a.m. **Alumni Baseball Game**
Randal R. Sadler Stadium

10:00 a.m. **An Insider’s Guide to College Admissions**
**Presented by Jonathan Stroud, Vice President for Enrollment and Communications**
Steinbrink Welcome Center, Tyler Hall
Developed for Earlham families with high school aged children, this presentation will cover recommendations for a successful college search, including an in depth discussion of planning college visits, pursuing admission to selective colleges and scholarship and financial aid opportunities. There will also be an opportunity for specific questions about Earlham’s enrollment process. A campus tour will follow.

10:00 a.m. – 12:00 p.m. **Residence Hall Open Houses**

10:00 a.m. – 2:00 p.m. **Joseph Moore Museum Open House**
**Featuring a Sneak Preview of A Creative Look at Climate Change**
Joseph Moore Museum

10:00 – 3:00 p.m. **Social Media Selfie Station**
West Alcove, Runyan Center

10:00 a.m. – 5:00 p.m. **Class of 1955 Gathering**
Center for Integrated Learning Commons

11:00 a.m. **Alumni Awards Ceremony**
Goddard Auditorium, Carpenter Hall

11:00 a.m. **Field Hockey vs. Wittenberg University**
M.O. Ross Field at Darrell Beane Stadium

11:00 a.m. – 1:00 p.m. **Roy Messer’s Retirement Luncheon**
Comstock Room, Runyan Center

Noon – 2:00 p.m. **Photo Booth**
Performance Gym, Athletics and Wellness Center
50th Class Reunion Photo, 2:30 pm, Performance Gym, Athletics and Wellness Center

Serving from: **Homecoming Lunch**
Noon – 1:30 p.m. Performance Gym, Athletics and Wellness

1:00 p.m. **Sustainability Tour of Campus**
Meet in the West Alcove, Runyan Center

1:00 p.m. **Women’s Soccer vs. Franklin College**
Matlack Field

1:30 p.m. **Campus Tour**
Meet in Orchard Room, Runyan Center

1:30 – 2:30 p.m. **In the Classroom with Earlham**
Get LinkedIn: Using the Web for Career Connections
Jennifer Banning, Assistant Director of the Center for Integrated Learning; Humanities and Visual & Performing Arts Career Adviser
Room 124, Landrum Bolling Center
Social media is a powerful tool for connecting with family and friends, but it’s also becoming an increasingly accepted (and expected) way of connecting with colleagues and people in your field. In this class we will discuss the benefits of using social media and the web to develop your career, with a special look at LinkedIn as an online networking tool.

A Quick Introduction to the What, Why, and How of Data Science
Charlie Peck '84, Professor of Computer Science
Room 300 (south end, righteous view), Center for Science and Technology
Data Science is the application of computing and mathematics to data sets of all shapes and sizes with the goal of converting that data into information. Data Science offers the promise of turning the vast amount of data we now collect into knowledge which can be used to address a wide variety of problems from across the entire academy. In particular, many applications of Data Science are employed in the context of social good.

The Calculus of Love Affairs, Love Triangles and Polyamory
Anand Pardhanani, Associate Professor of Mathematics
Room 301, Center for Science and Technology
This class will introduce some important calculus concepts through the process of modeling romantic attraction between two (or more!) people based on their personality types. Participants will learn about the derivative, and experience first-hand how this powerful, elegantly simple concept that is at the heart of calculus has transformed science and society. This class is suitable for beginners -- no previous experience in mathematics, love, or 3-way affairs required!

Zimbabwe Ain’t All That Bad; Rethinking Development Performance
Rajaram Krishnan, Professor of Economics
Room 327, Landrum Bolling Center
The United Nations ranks the development performance of countries using the Human Development Index (HDI). But there are problems with the HDI! We’ll talk about one problem with the HDI - that it is static. We’ll see a dynamic version of the HDI! And then your sense of who’s hot, and who’s not might change!

Embodying French
Aletha Stahl, Professor of French and Francophone Studies
Digital Liberal Arts Lab, Lilly Library
Participants will learn to greet each other, relax through simple breathing and movement techniques that can be done while sitting in a chair, and then explore a 3D digital learning space through an avatar-- all in French. Limited to 16 participants.

German for Absolute and Fun-loving Beginners
Margaret Hampton, Professor of German
Carpenter Hall 220.
This class demonstrates how quickly you can learn German and makes you aware of how much you already know!

Museomics: Unlocking the Mysteries of Museum Specimens Using Emergent Technologies
Heather Lerner, Director of the Joseph Moore Museum, Assistant Professor of Biology and Museum Studies
Room 103, Center for Science and Technology
Biological specimens are a treasure trove of information that has recently been unlocked with emerging new technologies in genetics, chemistry, and computer imaging. We will focus on how next-generation
DNA sequencing has founded a new field of Museomics, the genetic study of museum specimens. Examples will include the giant beaver, Hawaiian honeycreepers, and extinct humans. See how collections-based research, paired with new technology, is opening doors to whole new areas of inquiry.

Teaching Postcolonial Literature in English
Kari Kalve, Professor of English
Room 315, Carpenter Hall
What are the uses of a term that can mean as many different things as “Postcolonial?” How does this concept change how readers understand literature, and what features does a text need if it is to be called “postcolonial?” We will discuss the concept, look at some digital tools that students are using in a Postcolonial Literature class, look at some examples of postcolonial literature, and compile a reading list for future readings.

Creating Culturally Competent Educators: A Simulation Experience
Becky Dimick Eastman ’97, Assistant Director, Graduate Programs in Education, and Randy Wisheart ’75, Director, Graduate Programs in Education
Room 208, Landrum Bolling Center
Earlham’s Master of Arts in teaching program is committed to preparing educators to work with a diverse group of secondary students. This simulation is one example of how we help our students think about their personal experience, reflect upon that experience, and consider its impact in the context of their classroom.

Broadcasting the Past: Ancient Art as Social Media
Susan Wise, Associate Professor of Ancient & Classical Studies
Room 214, Carpenter Hall
In the ancient world where only a very small percentage of the population was literate, rulers and city administrators had limited avenues for reaching the attention of the masses. Drawing from examples from multiple cultures (Mesopotamia, Egypt, Rome), this class looks at some of the ways that art was used as public media to shape community opinion, perception and public memory.

Earlham Alumni: Who are they? How do they express the value of an Earlham education?
Polly Albright, Associate Director, Institutional Research and Assessment
Laura Stone Hinkley ’95, Senior Director of Development Research
Room 201, Landrum Bolling Center
This class will look at Earlham Alumni in terms of data. We will attempt to describe our alumni using data we collect including HEDS Alumni Survey data and First Destination Survey Data. We will also look at alumni in comparison with other institutions and explain the importance of data gathering to describe the value of an Earlham education.

1:30 – 4:00 p.m. Equestrian Rides
Suzanne Hoerner Jackson Equestrian Center
2:30 p.m. Football vs. Hanover College
M.O. Ross Field at Darrell Beane Stadium
2:30 – 3:30 p.m. Alumni-Student Choir
Lingle Recital Hall, Center for the Visual and Performing Arts
3:00 p.m. Ultimate Frisbee
Football Practice Field
3:00 – 4:00 p.m. Newlin Quaker Center Open House and Student Q&A
Virginia Cottage
3:30 p.m.  
**Men's Soccer vs. Franklin College**  
Matlack Field

3:30 p.m.  
**Sustainability Tour of Campus**  
Meet in the West Alcove, Runyan Center

4:30 – 5:30 p.m.  
**President’s Circle, Circle of Friends Tea hosted by David and Ellen Dawson**  
Souder Science Commons, Center for Science and Technology

5:30 – 6:30 p.m.  
**Cunningham Cultural Center Open House hosted by AAAB and BSU**  
Cunningham Cultural Center, 420 College Avenue

5:30 – 7:30 p.m.  
**Richmond Community Trick-or-Treat**
