Go out on a limb and start branching out!
Earlham College Mission Statement

The mission of Earlham College, an independent, residential college, is to provide the highest quality undergraduate education in the liberal arts, including the sciences, shaped by the distinctive perspectives of the Religious Society of Friends (Quakers). A basic faith of Friends is that all truth is God’s truth; thus Earlham emphasizes: pursuit of truth, wherever that pursuit leads; lack of coercion, letting the evidence lead that search; respect for the consciences of others; openness to new truth and therefore the willingness to search; veracity, rigorous integrity in dealing with the facts; application of what is known to improving our world.

To provide education of the highest quality with these emphases, Earlham’s mission requires selection of an outstanding and caring faculty committed to creating an open, cooperative, learning environment. The College provides for the continuous support and development of this faculty.

The teaching-learning process at Earlham is shaped by a view of education as a process of awakening the “teacher within,” so that our students will become lifelong learners. Students at Earlham are encouraged to be active, involved learners. The College provides extensive opportunities for students and faculty to interact with each other as persons, to learn from each other in a cooperative community, an important aspect of which is collaborative student/faculty research.

At Earlham College this education is carried on with a concern for the world in which we live and for improving human society. The College strives to educate morally sensitive leaders for future generations. Therefore Earlham stresses global education, peaceful resolution of conflict, equality of persons, and high moral standards of personal conduct.
Earlham College New Student Orientation 2017

“Where roots run deep...
Go out on a limb and start branching out!”
