

I'm interested in *Environmental Sustainability, Environmental Education, Climate Change, Natural Resource Conservation, and/or Environmental Culture & Justice!*

What should I take this year?

Name of program: Environmental Sustainability

First year students who are reasonably certain that they will major or minor in this area should take:

	<i>Recommended</i>	<i>You might also consider...</i>
Fall	ENSU 141: Environment, Society and Sustainability	BIOL 111: Ecological Biology ECON 103: Introduction to Microeconomics ENG 205: American Literature and Ecology GEOL 201: Earth & the Environment POLS 121: Introduction to American Politics and Policy
Spring	ENSU 151: Environment, Science and Sustainability	BIOL 226: Biological Diversity GEOL 201: Earth & the Environment SOAN 115: Anthropology in a Global Context ENSU 210: Outdoor Trip Leadership

First year students who are still exploring many options, but are interested in perhaps further study in this area should take:

	<i>Recommended</i>	<i>You might also consider....</i>
Fall	ENSU 141: Environment, Society and Sustainability	
Spring	ENSU 151: Environment, Science and Sustainability	

Does your department accept AP/IB courses for credit or advanced placement? **Yes, but this is an interdisciplinary major and credit acceptance/placement depends on the policies in the home department. We recommend consulting the advising guide and contacting a faculty member in the relevant department with any questions.**

If so, what scores qualify, and what placement is granted? **See above**
