

I'm interested in *Music!* What should I take this year?

Name of program: Music

First year students who are reasonably certain that they will major in this area or who are still exploring many options, but are interested in perhaps further study in this area should take:

	<i>Required/Recommended</i>	<i>You might also consider....</i>
Fall	MUS 171 Music Theory 1 AND/OR MUS 201 Writing about Music (for students confident in their writing ability) A Choral or Instrumental Ensemble (or both) and/or MUS 173 Sight-singing or MUS 175 Jazz Theory 1	MUS 364 Musics of Japan (for students who are confident about college-level work--there is no prerequisite)
Spring	MUS 271: Music Theory II MUS 272: Musicianship A Choral or Instrumental Ensemble (or both)	

*Does your department accept AP/IB courses for credit or advanced placement? **Yes, for advanced placement.***

If so, what scores qualify, and what placement is granted?

Students who take AP Music Theory will offered a placement exam, but it ordinarily results in them testing out of Music Theory I. They will still need to take the full required credit load, but higher level electives will be available to them.
