Randal R. Sadler Stadium

12:45 pm Class of 1983 Gathering to Tour Campus Together
Meet on the front steps of Earlham Hall

1:00 pm Faculty vs. Alumni Soccer Match
Comstock Field

1:00 pm Sustainability Tour of Campus
Meet in the West Alcove, Runyan Center
Ever wondered what your alma mater is doing about sustainability? Find out about composting, wind power, rain gardens and more when you join the Earlham College Sustainability Office staff on this specialized tour of campus highlighting Earlham's recent and longstanding sustainability projects. Tour will last 45 minutes, join for as short or long as you wish!

1:00 - 5:00 pm Self-guided Memorial Tree Tour
Come find the Sustainability Office’s table outside of Joseph Moore Museum to learn about memorial trees on Earlham's campus and pick up a map to follow the self-guided tree trail.

1:30 pm Campus Tour
Meet in Orchard Room, Runyan Center
1:30 pm
Earlham Theater Department Presents: Rudyard Kipling’s *Just So Stories*
Wilkinson Theatre, Runyan Center
Acting One students breathe life into three of Rudyard Kipling’s tales from the beginning when the world was new and all... Come discover *The Cat Who Walked by Himself*, *How the Camel Got Its Hump*, and *How the Elephant Got Its Trunk*. Exercise your imagination through this theatrical storytelling adventure.

1:30 – 2:30 pm Sample Classes

Consensus-seeking for the Real World: How to Encourage and Model it
Len Clark, Provost and Academic Dean Emeritus and Emeritus Professor of Philosophy
This session will remind you of consensus-seeking as Earlham tries to do it, adapted from the practice of many Friends. Much of it can be adapted to work you do every day, in committees, other groups, and all settings (even your family) where your group needs to make a good decision. We'll discuss and try out practical principles for making it work.

Identification and Ecology of Native Indiana Trees
Brent Smith, Professor of Biology
Meet in the Noyes Hall lobby right by the Wildman Science Library
Using keys and characters of leaves and branches our group will learn to identify some common deciduous trees in Indiana. Once identified, we will discuss the ecology of each species. This is an exercise done in Eco Bio in preparation for future field trips that focus on adaptation and forest tree sampling.

*One Flight Up* – New Work from the Second Floor of Runyan Center
Walt Bistline and Sungyeoul Lee, Assistant Professors of Art
Leeds Gallery
Join Earlham's photography and metalsmithing instructors for an informal discussion of their current exhibition, "One Flight Up," in Leeds Gallery in Runyan Center. Walt's photographs document his ongoing exploration of the Midwest since his last Earlham show in 2006. Meanwhile, Sungyeoul's delicate and intricate metalwork illustrates why the newest member of Earlham's Art faculty is considered one of Korea's outstanding young artists.

Recycled Rhetoric: Israeli "Pinkwashing" and the Palestinian Boycott Movement
Joy Ellison ’06, Women’s and Gender Studies and Peace Studies, DePaul University
Since the early 2005, queer organizations have been at the forefront of exposing and challenging an Israeli government sponsored public relations campaign named Brand Israel. Brand Israel advertising campaigns portray Israel as a safe-haven for gays and lesbians and Palestine as a repressive, violent and homophobic place as a way of justifying the Israeli occupation and colonial domination of Palestine. Activists have used the term "pinkwashing" to describe this rhetorical strategy. This presentation explores the intersections between gender, race, sexuality and settler-colonialism and their implications for anti-pinkwashing activism and the Boycott, Divestment, and Sanctions movement.

Museomics: Unlocking the Mysteries of Museum Specimens Using Emergent Technologies
Heather Lerner, Director of the Joseph Moore Museum, Assistant Professor of Biology and Museum Studies
Room 014, Dennis Hall
Biological specimens are a treasure trove of information that has recently been unlocked with emerging new technologies in genetics, chemistry, and computer imaging. We will focus on how next-generation DNA sequencing has founded a new field of Museomics, the genetic study of museum specimens. Examples will include Hawaiian honeycreepers, extinct humans, and Paleocene mammals. See how collections-based research, paired with new technology, is opening doors to whole new areas of inquiry.
Leaves, Bubbles, and Dust. Oh my!
Steve Heiny, Professor of Classics and Chuck Yates, Professor of History
The Greek warrior Glaukos thinks human lives are like so many leaves, falling from the trees and blowing away, only to be replaced by others. Does that mean he thinks our lives are without meaning? We'll look at his remark in its context in The Iliad and try to figure out what we think. If time permits, we'll compare what Glaukos thinks with a few comments from other times and places.

The Calculus of Love Affairs, Love Triangles and Polyamory
Anand Pardhanani, Assistant Professor of Mathematics
This class will introduce one to some important calculus concepts through the process of modeling romantic attraction between two (or more!) people based on their personality types. One will learn about the derivative, and experience first-hand how this powerful, elegantly simple concept that is at the heart of calculus has transformed science and society. This class is suitable for beginners – no previous experience in mathematics, love, or 3-way affairs required!

1:30 – 3:00 pm  Class of 1973 Gathering
                   Hall of Fame Room, Athletics and Wellness Center

1:30 – 4:00 pm  Equestrian Rides
                   Suzanne Hoerner Jackson Equestrian Center

2:00 pm  August Wilderness Alumni Gathering
                   Comstock Room, Runyan Center

2:30 pm  Football vs. Manchester University
                   M.O. Ross Field at Darrell Beane Stadium

3:00 pm  Class of 1958 Memorial Service
                   Stout Meetinghouse

3:00 pm  Sustainability Tour of Campus
                   Meet in the West Alcove, Runyan Center

3:00 pm  Ultimate Frisbee
                   Football Practice Field

3:00 – 5:00 pm  Retirement Reception for Ray Hively, Professor Emeritus of Astronomy and Physics; John Howell, Professor Emeritus of Physics; and Mic Jackson, Professor Emeritus of Mathematics
                   2nd Floor, Dennis Hall

3:20 – 5:00 pm  Class Photos
                   Hancock Room, Runyan Center

Schedule:
3:20 – Class of 1968  4:20 – Class of 1998
3:30 – Class of 1978  4:30 – Class of 2008
3:40 – Class of 1983  4:40 – Class of 1993
3:50 – Class of 1963  4:50 – Class of 1988
4:00 – Class of 1958  5:00 – Class of 2003
4:10 – Class of 1973
4:00 – 5:00 pm  
**Class of 2003 Gathering**  
Classroom 2240, Athletics and Wellness Center

4:30 – 5:30 pm  
**President’s Circle, Circle of Friends Tea hosted by David & Ellen Dawson**  
*By invitation only, 712 College Avenue*

5:00 pm  
**Joseph Moore Museum Planetarium Show**  
Joseph Moore Museum
